ADVANCE ORDER BLANK

THE RETURN OF THE AVENGER--KIT #38-LC GRUMMAN TBF/M LASER KIT COMING SOON.

NEW LASER CUT CONVERSION KIT SPECIAL ADVANCED ORDER LIMITED TIME OFFER.

Diels Engineering Announces Its Latest Laser Cut Complete Kit #38-LC Grumman TBF/M Avenger. The kit can be used to build a model of any one of versions TBF-1 through TBM-3E. The kit is 1/24 scale and has a wingspan of 27.08 inches.

This latest laser cut kit of the Grumman TBF/M Avenger, WW2 US Navy Torpedo Bomber has been upgraded from our old printwood Kit #38 by converting the printwood to laser cut balsa. At the same time we made several major revisions which have been incorporated into 5 large new single sided sheets of plans. Sorry the old drawings will not work with laser cut wood due to the many changes in the design. The kit has been revised and upgraded to the Align-O-Tab construction. The kit will have 9 separate sheets of laser cut wood, 5 each 18" x 24" plan sheets, building instructions(including some photos), vacuum formed canopy, turret, and stinger gun position enclosure, decals, hardware, Esaki tissue, stripwood, and some other miscellaneous items. The list price for this upgraded kit will be \$51.95 plus \$12 Shipping and Handling in the USA. E-mail us for Foreign shipping and handling information.

Advance Order Special Pricing: If you act now you can have one for the Introductory Price of \$40 plus \$12 S&H USA. If you want to order more than one kit the extra kits would be \$38 each plus \$3.00 S&H. This Introductory price is only good until November 15, 2016. Initial production will start in mid December 2016 with the first limited quantity run based on the number of advance orders received by November 15. Full production will start in Mid-March 2016.

Registered Members of the website may take an additional 5% off the kit price. If not a member and you want to be a member just go to the website and on the home page it asks for your member password or the option to register as a member. Mention you are a member when ordering.
